

QHSE Policy

QHSE and productive working environment are integral to the business approach of METALLINE KEK PAKISTAN. We continuously endeavor to incorporate these core values into our procedures and strive to reinforce culture of audit system to track performance throughout our business. All QHSE associated procedures are structured to meet stakeholders' requirement of quality, reliability and performance while conforming to applicable standards.

In order to achieve this, METALLINE KEK PAKISTAN shall ensure that:

- Appropriate quality checks are implemented at all levels of the production for timely identification of any shortcomings and proper corrective and preventive actions are taken to avoid recurrences.
- Our Top Management, Employees and Supervisors are committed to deliver optimum quality and personally adhere to philosophy of "Do it right first time, every time".
- QHSE goals and objectives are developed periodically in order to ensure compliance to Quality and HSE standards along with customer satisfaction.
- Encourage and Empower all the employees to actively report unsafe conditions and actions to continuously improve HSE culture and establish audit system.
- Top Management is responsible and committed to raise awareness and promote ownership for Health, Safety and Environment related matters at every level for sustainable performance.
- Manage risks related to business processes proactively to ensure that ill health, near misses, injuries and environmental impacts are prevented.

Naseer Ahmad
